Tests Performed

OCT Macula - Right
 Ordered: 4/21/2023
 Eye: Right Eye
 Location: OD
 Reviewed: Electronically Signed by: Min-Kyu Han, M.D. 4/21/2023
 Findings: OD sealed mac hole
 Plan: OCT of the macular performed.
 Notes: See diagnosis, assessment, and plan for additional details.
 Indication: Retinal edema

Diagnosis And Plan

Z98.890 Other specified postprocedural states OD
 Assessment: S/p surgery. PPV MH repair with gas exchange, sealed mac hole
 Plan: Discussed with pt that the hole is sealed. Pt currently has floaters, if the floaters increase pt to call.

H35.81 Retinal edema OS
 Assessment: Examination revealed retinal edema.
 Plan: All testing was discussed with the patient.

Tests Performed

OCT Macula - Bilateral

Ordered: 8/17/2023

Eye: Both Eyes

Location: OU

Reviewed: Electronically Signed by: Min-Kyu Han, M.D. 8/17/2023

Findings: OD resolved SRF.

OS stable trace ERM

Plan: OCT of the macula performed.

Notes: See diagnosis, assessment, and plan for additional details.

Indication: Retinal edema

Diagnosis And Plan

H35.81 Retinal edema OD

Assessment: Examination revealed retinal edema.

Plan: All testing discussed with patient and the family.

Made patient aware that the edema has resolved at this time.

Thus, we will continue to monitor.

Return in 6 months for Specialty with MKH

Dilate OU

MAC OCT OU

H35.372 Puckering of macula, left eye OS

Assessment: Examination revealed a macular pucker.

Plan: Continuing to monitor.

H43.813 Vitreous degeneration, bilateral OU

Assessment: Examination revealed a posterior vitreous detachment.

Plan: Using eye model, treatment options explained in detail with patient:

1-Monitor (recommended)

2-Laser Vitreolysis (for floaters)

3-PPV Surgery (not recommended at this time)

Patient informed that this is an age-related change and is not a blinding condition.

The risks of surgery may outweigh the benefits and is not recommended unless daily activities are strongly affected.

The floaters should improve over time but will not go away.

Diagnosis And Plan

Patient advised to return if symptoms worsen, any new onset of floaters, or if symptoms appear in the other eye.

Goals

Lessen Distortion [G]

Date: 8/17/2023 Code: H35.37

Maintain Visual Field [G]

Date: 8/17/2023 Code: H43.81
